

LOCAL 3 NEWS

Fall 2016

From the Desk of **PRESIDENT DAVE JACKSON**

In our first Newsletter of 2016, I mentioned that we would be working on changes to our Local Constitution and Bylaws. The committee has met, reviewed, and made draft amendments and updates to our Constitution which has not been amended since Local 3's inception in 1993. The committee has updated and amended the initiation, dues, officer, delegate, and election sections, as necessary for the ideal operation of the Local now and in the future. Instituting a contribution earmarked towards Organizing for all members will bring a much needed full-time Organizer for the Masonry Trades, as well as assure our full-time Organizer for Tile will stay in place. The Constitution gives the Management and Executive Committees the flexibility to commit to a Building Fund that will allow the Local to own its future office; to commit to a Market Recovery program to increase work in counties where there is little union presence; to commit to the International Masonry Institute and our Political Action Committee (PAC) Fund that will strengthen our local in multiple ways. The Constitution Committee has concluded work on the proposed amendments. The amendments have been sent to the International Union for their review, confirmation that amended language is acceptable under the IUBAC constitution and by-laws, and approval. I thank the following committee members for their participation and input: Troy Garland, Gary Peifer, Darin Compton, Laurie Harris, and Steve Vogel. After we have received approval, the entire constitution and by-laws will be brought to the membership for approval by mail referendum. Every member will receive a letter on the amendments and a timeline for an election.

I attended the IUBAC Local Leadership Conference in August at Baltimore's Maritime Institute of Technology and Graduate Studies. Also attending were Vice Chairs Gary Peifer and Steve Kantoniemi. We all agreed this was the best LLC educational conference the IU has presented. The content sent a clear message to local unions, BAC needs to grow during this upswing in the economy to survive and continue as an independent International Union. The history of our membership numbers and the current percentage of BAC hours compared to total masonry hours, present a clear picture of our need to grow. Local leaders understand we play a large role in growth, and the program showed ways our membership can play an important role in the local union growth as well.

The IU recently polled BAC membership with questions on how willing members would be to volunteer for activities in the future: over two thirds said they would perform public service; over one half said they would help in organizing; over one third said they would serve as committee members for Stewards, Elections, Bargaining, and Political Action. As the local leadership takes on the challenge of growing our local, we would like to include

our membership. Please call me or your local Business Agent if you agree to help with one of the above activities. When these opportunities present themselves now, we scramble to get members to cover these events. Having a list of members willing to volunteer when necessary will be a huge help in the future.

Thank you to all members who have helped in the past and participated in BAC PACT.

The California State Building Trades President, Robbie Hunter, writes a monthly column that appears on their website, www.sbctc.org. I agree with his September column stating that Labor Leaders have a responsibility to our members to research the choices that face us at election time, and how those choices will affect the quality of life for BAC members and their families. I want to use my position to help the candidates that will be best for our members' families, and stop the candidates that will hurt us. Robbie goes on to say:

"Whether we like it or not, the fact is that the next President of the United States will be one of two people: former First Lady, United States Senator, and Secretary of State Hillary Clinton; or billionaire tycoon Donald Trump.

Donald Trump is monstrously hostile to the interests of working people, leaving Secretary Clinton as the only reasonable choice to represent working men and women. She can and will improve the quality of life for blue collar workers as our President.

Trump is entirely committed to anti-union right-to-work policies, opposes a livable minimum wage, and in fact stated bluntly that he wants lower wages for all working people in general. He favors policies that destroy workers' right to organize and collectively bargain. He has refused to recognize his own hotel employees' votes to unionize and won't negotiate with them in good faith. He brags about using bankruptcies as a pro-active business tool, to deliberately avoid paying what he knows he owes to his construction contractors and workers, driving some themselves into bankruptcy. Many of these companies had successfully competed in the construction industry for decades until the day they did a project for Donald Trump.

To some working people, Trump's unconventional blunt and incendiary style, contrasted against the hyper-partisan gridlock and dysfunction that permeates our politics today, may have a certain populist appeal to it.

But none of that changes who he really is, and what a Trump presidency would mean for working families. It would be bleak."

BAC LOCAL 3 NEWS...

PRESIDENT'S MESSAGE *(continued)*

Bleak indeed; A Trump presidency would be a disaster for BAC members and all working families across the United States.

There are many other candidates and propositions on the ballot this November besides President of the United States. Many of these campaigns are very important to your work and family as well. The local Building Trades Councils have a procedure to interview and vote on endorsements that will help our members.

We have included in this issue all Building Trades endorsements we have received in time for printing. The entire list of endorsements received are posted on our website. Please take these endorsements into consideration before you make your final decision. Most importantly, please exercise your right to vote to protect the best interests of your families.

Work safe and honor all pickets.
Dave Jackson

From Field Representative DARIN COMPTON **LABOR DAY AND OUR UNION'S HISTORY**

Labor Day was established as a federal holiday in 1894 and is a celebration in honor of the American labor movement and the contributions it has made to the strength, well-being and prosperity of our country. It seems fitting to write about the labor union to which we belong, its history of struggles, resilience and innovation that span three centuries.

Many people do not know that our union, The Bricklayers and Allied Crafts, was established in Philadelphia on October 16, 1865 making it the oldest continuously operating labor union in North America. The need for the Bricklayers Union was born out of abuses of workers rebuilding this nation after the Civil War. If workers complained about working conditions or tried to organize, they were fired.

The Bricklayers Union grew rapidly. By 1868, there were 6,000 members, and the union quickly joined the fight for the 8 hour day. In 1881, the first charters in Canada were established; the union was expanding. By 1884, there were 13,000 members, and by 1891 there were 24,000, when disaster struck. The depression of the late 1800s decimated the union's membership, reducing it to 229 members. In 1899, the union established a mortuary fund and a pension fund called The Relief Fund for its members.

In 1917, the U.S. entered WWI, and many members went to fight the war in Europe never to return. Others stayed behind to build barracks and factories. During the building boom of the 1920s, membership soared to 130,000, but this expansion was short-lived, and The Great Depression of the 1930s reduced the union's membership to 34,000. By 1934, three-fourths of the membership had been lost.

Franklin D. Roosevelt was elected President of the United States in 1933 and his "New Deal" and Works Progress Administration brought relief to U.S. workers. Laws like Davis Bacon and the Wagner Act established area-prevailing wages and the right to collectively bargain. Dams, roads, bridges and other massive projects put Americans back to work. In 1941, the U.S. went to war again, and members built factories, war plants and the Pentagon. By 1965, the Bricklayers Union was 100 years old and established the International Pension Fund, or IPF, shortly after. In the 70s, the Occupational Safety Health Act was passed to protect workers' health and safety on the job.

Our union has a long history of contribution to the strength and prosperity of our country and its labor movement. We as members should be proud to be a part of this rich history on a day which honors these contributions: Labor Day.

THE BEST HANDS IN THE BUSINESS!

NOTES FROM THE FIELD

From Field Representative **GARY PEIFER**

Brothers and Sisters,

As BAC 3 members finalize the work at the Golden One Center (Sacramento Kings Arena) for the grand opening, I'll take this opportunity to say Thank You for the outstanding craftwork displayed in this Project. The arena has been the source of revival in the Sacramento

regions construction industry and while we can be grateful, we must not be idle or complacent. Projects like the arena are the result of the private and public effort by citizens like you that understand and support stable and responsible growth. Our jobs and families future depends on participation in this process.

As your Union representative, it is incumbent upon me to identify not only labor friendly candidates, but also the key bond measures that we should support when voting to ensure continued employment as BAC Craftworkers. While I remain committed to an individual's right to cast a ballot as they deem appropriate, I ask that you educate yourselves on the propositions and measures listed below and vote to insure stable future growth and employment in the construction industry. The following are a few very important measures in the Sacramento area.

Be well, Gary.

Sacramento City and County:

Vote "YES" on Measure B as it will fund 3 billion for construction of new and repair of existing streets and roadways in Sacramento County with 75% to be used for "fix it first" repair and maintenance in the first 5 years.

Stockton / Lodi City and San Joaquin County:

Vote "Yes" on Measure U as it will fund 280 million for school construction with an additional 100 million if Prop 51 passes statewide.

Modesto City and Stanislaus County:

Vote "YES" on Measure L as it will fund 80 million for construction of new and repair of existing streets and roadways in Stanislaus County.

L to R: Jorge Castro, Gary Peifer and Steve Gamboa

From Field Representative **RANDY SMITH**

GET OUT AND VOTE!!

We encourage all BAC Local #3 brothers and sisters to register to vote, stay informed on current events, and participate in their local elections. The consequences of the 2016 election will have a direct impact on our jobs, schools, families and future. Ultimately, we need our union members to be well informed and get out and vote for policies and candidates who support working families.

Many of the projects that our Members are working on are Union because of School Board members, City Council members, Mayors, State Legislators, Governors, Congressman, Senators, and Presidents that support good paying jobs with good benefits. We as

Union Members need to support and vote for the Candidates, Ballot Measures, and Propositions that make our lives and future better.

In this month's Newsletter, BAC 3 is providing endorsement recommendations. These recommendations were chosen after countless hours of research, interviews and meetings. The main objective is to provide our members with the best information to make voting decisions that will directly benefit them and their families.

Thank You
Randy Smith Field Representative BAC 3
